PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER at HashedIn by Deloitte

November 2023 – Present

- Developed and maintained multiple scalable web applications using **TypeScript, React, Redux Toolkit, Material UI, and Clay UI**, consistently optimizing performance through **code splitting, lazy loading, and component memoization**, while ensuring accessibility and usability by **adhering to WCAG guidelines** across all applications.
- **Led the front-end team** to deliver end-to-end functionality, achieving **100% on-time sprint deliveries** and collaborating effectively with cross-functional teams for integration and testing.
- **Contributed** to the development of a **custom ETL tool**, improving data processing up to 97% and reducing export times by over 15 hours.
- **Enhanced Dialogflow CX and Dialogflow ES chatbot solutions**, improving conversational accuracy by 30% and reducing fallback rate, resulting in a more seamless and user-friendly conversational experience.
- Collaborated with backend developers to **design and implement efficient API endpoints**, resulting in streamlined data flow and a high-performance application.

SDE Intern at HashedIn by Deloitte

March 2023 – June 2023

- Acquired practical experience on **PySpark, Docker, Kubernetes, NestJs, NextJs** and **Flutter**.
- Built a fully functional **news application using Flutter**, implementing innovative features and a highly intuitive UI to deliver a seamless user experience.
- Developed a basic chatbot leveraging **LangChain and Panel library** with dynamic UI support, enabling real-time query handling and seamless conversational experience.
- Contributed as a front-end developer to a responsive website using **Next.js, TypeScript, and Bootstrap**, implementing **performance optimizations** and ensuring **cross-device compatibility** for a smooth user experience.
